## 1. ALP Control Unit PLUS

with Control set for Stealth install  
(external power button, 3,5mm  
audio-plug & speaker included)

***Intended for users who desired a  
hidden Control set with a small  
power-on button, and with well  
hidden speaker that is louder than  
speaker in regular Control Set.***

Power button functions:

1. Short press to power on
  2. Long press to power off
  3. Short press when driving to Mute
  4. Double press while driving to  
switch Radar modes (city red – city  
yellow – highway)
  5. Press during laser/radar alert to  
stop alert
-

## 2. ALP Control Unit Moto

with Cset with external button and  
audio plug for use with 3rd party  
headsets (exterior button & 3,5mm  
audio-plug included, speaker  
excluded)

***Intended for motorcycle users who  
need to hide Control set, and who  
need only audio plug for connecting  
with wireless 3rd party headphones  
and headsets in order to hear alerts  
inside a helmet.***
